

Real facts on making money from home.

Making money on the internet is an opportunity which has to be taken seriously. Home based business is a multi billion dollar industry that generates more than \$450 billion in annual revenue, worldwide. It is an interesting fact that nearly half the families in United States are engaged in some kind of activity that makes them money while working from home.

Since the advent of the internet, making money from home has never been so easier. You can literally sit in your Pajamas and earn consistent income from part time data entry jobs, affiliate programs and stock trading. How much money is anyones guess but IDC, a leading research firm, indicated that nearly 51 percent of the home business are generating on average \$40,000 working from home.

Accounting for 70 percent of all sales, women have capitalized on this opportunity by holding a lions share of home based businesses. The recent stock market crash of 2008 and its subsequent impact on a troubled world economy should make everyone think about working from their homes.

Those who are able to make money sitting at their home offices are already reaping the benefits of being their own Boss.
