

## 5 Things to Think About when Buying Bridal Shower Invitations

The day a woman gets married is supposed to be the most perfect and special day of her life. And while this is a wonderful thought, it also puts a lot of pressure on whoever is planning the bridal shower. You want everything to be perfect for the bride you're celebrating. And part of hosting a perfect bridal shower is, of course, buying the perfect bridal shower invitations.

1. Invitees. The length of the guest list will have a significant impact on the kind of bridal shower invitations you choose. Especially for those planning with a limited budget, the cost of a ton of fancy invitations for a ton of guests can get out of hand. Before you can be sure about the kind of invitation you want for a bridal shower, it's important to think through your guestlist. From there, you'll be able to determine which kinds of invitations will best fit into your budget.
2. Theme. When choosing bridal shower invitations, you'll also need to consider the theme of the shower. Oftentimes, this theme matches the one chosen for the wedding, such as a Halloween-themed shower for a Halloween wedding. Other times, the shower theme can be totally unrelated (and just be a lot of fun!) like a sexy underwear bridal shower. If you've chosen a theme for the shower, the bridal shower invitations should reflect that.
3. Design. The design of your bridal shower invitations will, of course, be closely linked with your theme. But it will also depend heavily on the tone of the shower. Will it be a formal bridal shower? Then your invitations should have a more formal design. Hosting an informal get-together with the girls? Then go with fun, colorful bridal shower invitations. It's important to remember that your invitation design will give your guests the first hint of what kind of party to expect.
4. Printing. There are countless options for printing your bridal shower invitations. For bridal shower planners on a budget, it's often best to print your invitations on a home printer or in a printing shop. If you have more money and less time, you can also purchase invitations. When you purchase invitations, you can either buy them preprinted (cheaper), or you can have them specially designed and printed by a bridal shower invitations professional (more expensive). Many maids of honor simply order their bridal shower invitations online.
5. Wording. Wording for bridal shower invitations can be complicated; there's a lot to take into consideration. The invitation wording should incorporate your bridal shower theme and tone/level of formality.
